# Parent and Community Partnership

## Introduction

At Cauldwell we are committed to working in partnership with our families and the wider community.

We recognise that parents and carers are the most important influence in a child's life and that the school is most effective when there is a positive working partnership between parents and carers and the school. With this support network the child has the best environment to thrive, learn and reach their full potential.

## Who is a Parent?

For the purposes of education law, section 576 of the Education Act 1996 defines a 'parent' as:

- all natural (biological) parents, whether they are married or not;
- any person who, although not a natural parent, has parental responsibility for a child or young person (this could be a step-parent, guardian or other relative);
- any person who, although not a natural parent, has care of a child or young person.

## Parental Responsibility

School and local authority staff must treat all parents equally, unless there is a Court order limiting an individual's exercise of parental responsibility. Everyone who is a parent, as defined under education law, has a right to participate in decisions about a child's education and receive information about the child.

Individuals who have parental responsibility for, or care of, a child have the same rights as natural parents; for example:

- to receive information, e.g. pupil reports;
- to participate in statutory activities; e.g. vote in elections for parent governors;
- to be informed about meetings involving the child; e.g. a governors meeting on the child's exclusion.

In cases where schools cannot resolve the conflict between separated parents, they should advise the aggrieved parent to pursue the matter through the Family Court.

Where the school needs parental consent to outings and activities, the head teacher will seek the consent from the resident parent.

## Aims and Objectives

Our aims are:

- To provide a partnership between home and school where there is trust, mutual respect and good communication
- To create an environment in which families feel welcome and valued
- To enhance the learning experiences of all pupils
- To provide an environment in which the child can thrive, feel safe, happy and have a desire to learn

- To promote high levels of self-esteem in children and their families
- To encourage parents and carers to be involved in their children's learning
- To encourage parent and carer's skills to enrich the learning opportunities of the children
- To offer home / school support and guidance to families through our Family Support Worker and outside agencies when appropriate
- To engage with the community to further enrich our pupil's educational experience.
